¹ No comments were received during the period of public consultation. Therefore, the final monograph is published together with the final assessment report and list of references, without an 'overview of comments received during the public consultation'

European Union herbal monograph on *Fragaria vesca* L.; *Fragaria moschata* Weston; *Fragaria viridis* Weston; *Fragaria x ananassa* (Weston) Duchesne ex Rozier, folium

1. Name of the medicinal product

To be specified for the individual finished product.

2. Qualitative and quantitative composition^{2,3}

Well-established use	Traditional use
	With regard to the registration application of Article 16d(1) of Directive 2001/83/EC <i>Fragaria vesca</i> L.; <i>Fragaria moschata</i> Weston; <i>Fragaria viridis</i> Weston; <i>Fragaria x ananassa</i> (Weston) Duchesne ex Rozier, folium (wild strawberry leaf) i) Herbal substance Not applicable. ii) Herbal preparations Comminuted herbal substance.

3. Pharmaceutical form

Well-established use	Traditional use
	Comminuted herbal substance as herbal tea for oral use. The pharmaceutical form should be described by the European Pharmacopoeia full standard term.

4. Clinical particulars

4.1. Therapeutic indications

Well-established use	Traditional use
	Indication 1)

¹ The declaration of the active substance(s) for an individual finished product should be in accordance with relevant herbal quality guidance.

² The material complies with the Austrian Pharmacopoeia monograph (ÖAB 2013:076)

Well-established use	Traditional use
	Traditional herbal medicinal product used for the relief of symptoms associated with minor urinary tract complaints in addition to the general recommendation of a sufficient fluid intake to increase the amount of urine. Indication 2) Traditional herbal medicinal product for symptomatic treatment of mild diarrhoea. The product is a traditional herbal medicinal product for use in the specified indications exclusively based upon long-standing use.

4.2. Posology and method of administration⁴

Well-established use	Traditional use
	Posology Indication 1) <i>Adolescents, adults and elderly</i> Herbal tea: 5 – 10 g of comminuted herbal substance in 200 ml of water as a decoction. Drink the prepared decoction 2 - 3 times daily. Indication 2) <i>Adolescents</i> Herbal tea: 4 - 5 g of comminuted herbal substance in 150-200 ml of boiling water, prepared as herbal tea infusion or decoction. Drink half of the tea, 2 - 3 times daily. <i>Adults</i> Herbal tea: 4 - 5 g of comminuted herbal substance in 150-200 ml of boiling water, prepared as herbal tea infusion or decoction. Drink 2 - 3 times daily. The use in children under 12 years of age is not recommended (see section 4.4 'Special warnings and precautions for use'). Duration of use

⁴ For guidance on herbal substance/herbal preparation administered as herbal tea or as infusion/decoction/macerate preparation, please refer to the HMPC 'Glossary on herbal teas' (EMA/HMPC/5829/2010 Rev.1).

Well-established use	Traditional use
	Indication 1) If the symptoms persist longer than 2 weeks during the use of the medicinal product, a doctor or a qualified health care practitioner should be consulted. Indication 2) If the symptoms persist longer than 3 days during the use of the medicinal product, a doctor or a qualified health care practitioner should be consulted. Method of administration Oral use

4.3. Contraindications

Well-established use	Traditional use
	Hypersensitivity to the active substance(s).

4.4. Special warnings and precautions for use

Well-established use	Traditional use
	Indication 1) If complaints or symptoms such as fever, dysuria, spasms or blood in urine occur during the use of the medicinal product, a doctor or a qualified health care practitioner should be consulted. Because adequate fluid intake is required during treatment, <i>Fragaria vesca</i> L.; <i>Fragaria moschata</i> Weston; <i>Fragaria viridis</i> Weston; <i>Fragaria x ananassa</i> (Weston) Duchesne ex Rozier, folium (wild strawberry leaf) is not recommended for patients with conditions where reduced fluid intake is advised. The use in children under 12 years of age has not been established due to lack of adequate data. Indication 2) If diarrhoea recurs or bloody stools occur, a doctor or a qualified health care practitioner should be consulted. The use in children under 12 years of age has not been established due to the lack of adequate data.

4.5. Interactions with other medicinal products and other forms of interaction

Well-established use	Traditional use
	No interaction studies have been performed.

4.6. Fertility, pregnancy and lactation

Well-established use	Traditional use
	Safety during pregnancy and lactation has not been established. In the absence of sufficient data, the use during pregnancy and lactation is not recommended. No fertility data available.

4.7. Effects on ability to drive and use machines

Well-established use	Traditional use
	No studies on the effect on the ability to drive and use machines have been performed.

4.8. Undesirable effects

Well-established use	Traditional use
	None known If adverse reactions occur, a doctor or a qualified health care practitioner should be consulted.

4.9. Overdose

Well-established use	Traditional use
	No information available.

5. Pharmacological properties

5.1. Pharmacodynamic properties

Well-established use	Traditional use
	Not required as per Article 16c(1)(a)(iii) of Directive 2001/83/EC, unless necessary for the safe use of the product.

5.2. Pharmacokinetic properties

Well-established use	Traditional use
	Not required as per Article 16c(1)(a)(iii) of Directive 2001/83/EC, unless necessary for the safe use of the product

5.3. Preclinical safety data

Well-established use	Traditional use
	Not required as per Article 16c(1)(a)(iii) of Directive 2001/83/EC, unless necessary for the safe use of the product. Tests on reproductive toxicity, genotoxicity and carcinogenicity have not been performed.

Additional information

Well-established use	Traditional use
	Not applicable.
